

## The safe & affordable install

*Applicable for residential or light commercial installations*

### Dual Fan Mini Split Stand SPECS QSMS1202/1802

A Close Up:

Each foot is slotted to receive 1/4"/20 hardware in order to bolt to concrete, cement, wood or plastic pad for stability & security.

4 points of anti-vibration isolation washers are provided while using four 50-derometer rubber pads on each foot.

Our Quick Sling Dual Fan Mini Split Stand is made of 14-gauge square tubing & 7 gauge steel which is powder coated with a sea coast coating & able to hold up to 400 lbs.

Quick-Sling Dual Fan Mini Split Stand provides you with an elevated platform that is safe, stable and affordable. Our QSMS1202 is the only way to mount your dual fan condenser to ensure its up off the ground safely, with no tip overs.
