

STATUS LIGHT CODE		
Light Flashes	Color	STATUS
0	RED	Control Off/Pilot Out
1	BLUE	Normal Operation
2	RED	Thermopile Voltage Low
4	RED	High Temperature Shutdown
5	RED	Leak Control or Valve Failure
7	RED	Flame Sense Error
8	RED	System Problem

If Pilot is lit, Status Light will steadily stay lit and turn from blue to red when each is turned to OFF.

SCALDING RISK INCREASES WITH HOTTER WATER

TO LIGHT PILOT PRESS AND HOLD INLET VALVE FOR 30 SECONDS. ALL GAS VALVES WILL OPEN. PRESS AND HOLD INLET VALVE FOR 30 SECONDS.

## The Water Leak Alert

Protects Homes Against Costly Water Damage

# Water Leak Alert

Offer your customers peace of mind through audible alerts about water leaks.

The Water Leak Alert notifies homeowners about potential water leaks in their homes, is easy to install, and is reusable. It can be used to detect leaks from water heaters, sump pumps, condensation pans or any spot in the home that has potential for water damage.

LEAKS**  
FROM SUMP  
PUMPS, TOO

## Detection & Protection

The average water leak causes \$7000 in damage\*. Audible alerts from the Water Leak Alert can help reduce a homeowner's risk of costly repairs. The Water Leak Alert can be hardwired to self-powered water heaters with Honeywell gas valves to turn the main burner off when a water leak is detected. That way, homeowners have a secondary alert if they don't hear the primary audible alert.

## Versatile Applications

Works with various water appliances like water heaters, sump pumps and other HVAC applications (with or without drain pans) and in multiple additional areas of the home where leaks are a risk.

## Cost-Effective

Perfect for homeowners who want a no-frills solution. The Water Leak Alert will audibly alert them at the first sign of a leak.

## Expandable

The Water Leak Alert includes a 5-ft. water sensing cable that detects leaks across its entire length. Additional cables can be added for expanded coverage.

## Fewer Callbacks

Battery operation makes maintenance easy for the homeowner.

## Easy Upsell

Because homeowners are more aware of leaks when replacing a leaky water heater, they're more likely to purchase a Water Leak Alert with a new water heater and have it all installed at the same time.

## Easy Setup

No special tools are required to set up the unit. Simply mount it to the side of the water heater or place by another water source prone to leaks.

## Reusable

Since it's reusable even after detecting an incident, the cost for homeowners is minimal.

\*American Insurance Association

## Thermostat Connection

The Water Leak Alert can connect to the Prestige IAQ with an EIM. That way, alerts pop up on the thermostat and homeowners can contact a contractor immediately, increasing service revenue.

## PRODUCT FEATURES

Battery	2AA Alkaline (included)
Battery Life	Up to 5 years w/o incident
Dimensions	3.06" square x 1.25" thick
Weight	0.32 lbs
Cable Sensor Accessory	5 ft
Buzzer Alarm	100 dBA
Ingress Protection Rating	IP44*

## Product

## Model #

Water Leak Alert	WHLDT1000
Accessory Cable Sensor (4 ft)	CHWES41013
