

BAPI Wall Plates come standard in aluminum or stainless steel with a metallic finish; however, many other color and finish options are available for the single gang, non-louvered units. The color and finish options are available with all three styles of pushbutton override and with the keyswitch override.

**Color and finish options are Special Orders. Minimum order and lead time may apply. Please call BAPI for pricing and availability.**

\*All Passive Thermistors 20K  $\Omega$  and smaller are CE compliant.

Call BAPI if you have questions about the above ordering grid or the configuration of the product you are ordering.

Other color and finish options may be available. Contact BAPI for more information.

<sup>1</sup>Voltage to power LED indicator (5 VDC or 24 VDC or VAC) must come from the controller or other external source.

<sup>2</sup>Security Screws are stainless steel and may not match the color of the aluminum wall plate
