

DuraLastTM Air Filters

**Low Cost, Natural Fiber,
Permanent Air Filters
To Fit All Forced Air Systems**

A DuraLast Air Filter is the perfect filter for all your needs. Made of rugged natural fibers, a DuraLast Filter out performs all the rest in all humidification and evaporative cooling applications. They feature:

- **High Capacity**

High containment holding capacity of DuraLast filters make them

2 1/2 - 3 times longer lasting.

- **Depth Loading**

DuraLast filters are engineered to load throughout their entire depth for

increased dust-holding capacity.

- **Flame Retardant**

- Conforms to UL Class 2

- DuraLast Filters can be produced to

meet or exceed FMVSS302.

- **Extra Rigid**

Self-sealing edges permit

full-size use of the filter.

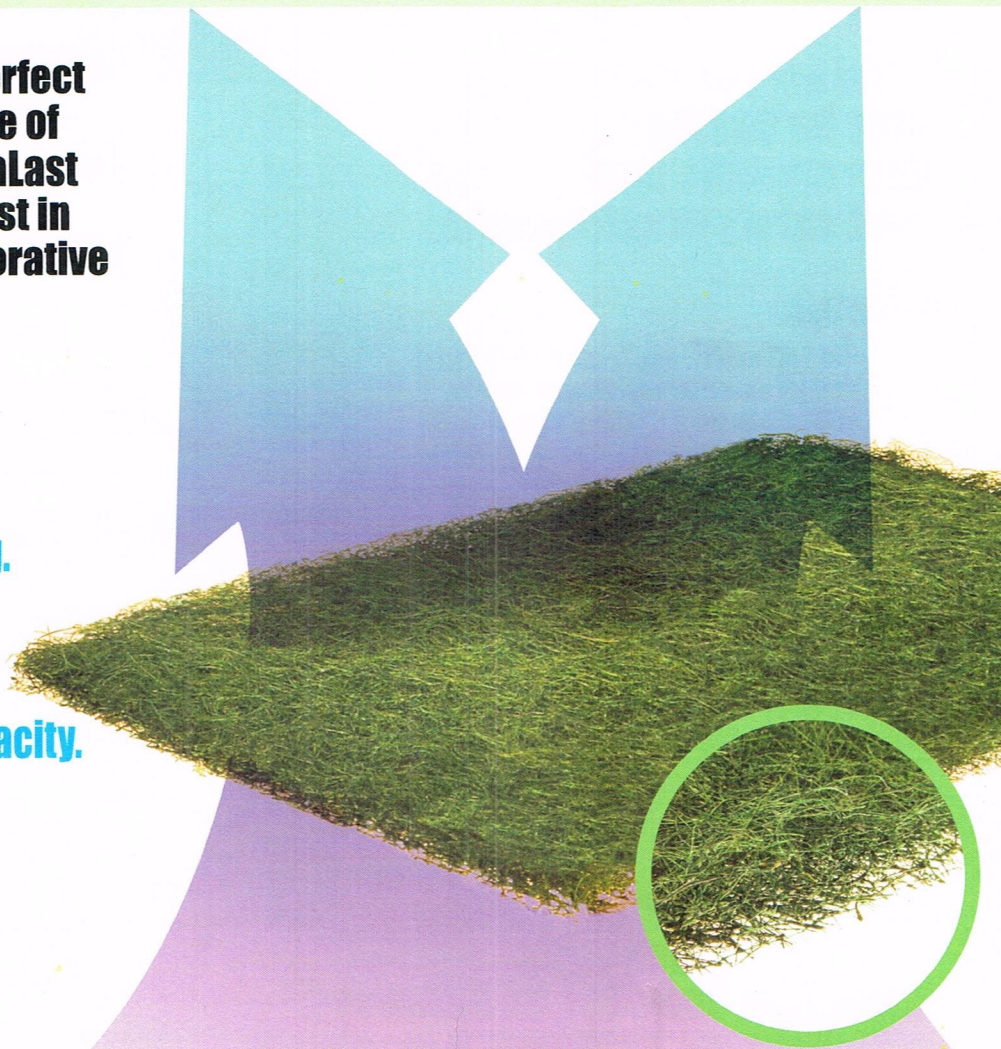

- **Washable, Vacuumable And Reusable**

- **Stores Indefinitely With No Deterioration**

Degradable in landfill.

- **Bacteriostatic**

- **Can Be Cut To Fit Any Application**

DuraLastTM Air Filters

A Letter From A Consumer

"Dear Sir:

I need to replace the permanent DuraLast filter that came with our house furnace (Fraser Johnston). It is a green rectangular filter approximately 13 inches by 22 inches. With repeated washings, it has lost most of its stiffness over the past 16 years. Please send me reorder information."

Anne M. Timmer,
Manhattan Beach, California

Air Filter Comparison* - 20" x 20" x 1"

Filter Test Sample	#1 DuraLast Natural Fiber	#2 Metal Mesh Metal	#3 Fiberglass Disposable	#4 Fiberglass Disposable
Media Type				
Dust Holding Capacity (g)	520	190	40	80
Arrestance (%)	78%	42%	57%	56%
Initial Resistance (in. w.g.)	.05	.08	.05	.03

DuraLast Permanent Filters may be customized to suit your specific applications and safety requirements.

Versatile

We will notch, angle-cut or otherwise design our filters to fit your needs. Filters can be cut with a pair of household scissors.

Various Thicknesses

Filters come standard in 1/2", 3/4, 1" and 2" thicknesses.

Choice Of Stiffness

You may choose to order your filters standard, extra stiff, or extra-extra-stiff.

Virtually Unlimited Sizes

Filters can be ordered in standard sizes, custom-fitted pads, or in bulk rolls.
