Rx11-flush®

Rx11-flush is a unique solvent engineered specifically for flushing refrigeration and air conditioning systems. Rx11-flush is ozone-safe, non-toxic, and non-flammable. Its patented HFC-based solvent formulation is powerful enough to flush away sludge, carbon residues, oils, acids, water and other particulates. Rx11-flush is ideal for system flushing after burnouts, during retrofits, and for flushing line sets for R-410A conversions. Rx11-flush has been the industry's standard for over a decade, and contractors agree — it's the best flush for R-410A retrofits and after compressor burnouts.

Rx11-flush® Liquid

Rx11-flush Liquid is a unique solvent engineered specifically for flushing refrigeration and air conditioning systems. It remains a constant boiling solvent, and its stronger, faster-acting formula dissolves more oil, moisture, and contaminants than any other flush. It is ideal for line sets, burnouts, and other flushing requirements.
