CALGreen  
compliant

**Introducing the NuTone® LunAura™ Collection.  
Ambient LED Soft Glo fans with Ultra Silent™ Ventilation.**

If you have a room that could use ventilation and lighting, but aren't satisfied with the style options available, look no further than the NuTone LunAura Collection. The benefits of powerful, Ultra Silent™, ENERGY STAR® qualified ventilation now come with a soft, beautiful, blue LED edge-glow nightlight. It's a dramatic interpretation of the calming lighting Mother Nature provides a few days every month, now available anytime at the touch of a switch.

Long-life, energy-efficient blue LED.

Two fluorescent bulbs provide the output of two 75-watt incandescent bulbs.

Transform any room into a unique, calming space.

## NuTone® LunAura™ Collection. Bring ventilation and dramatic LED lighting to any room.

The transitional design of the NuTone LunAura Collection is apparent the moment you see it with a green-tinted light panel suspended below the ventilation fan. When the LED nightlight is activated, the plate turns blue with a stunning glowing edge. Blue was selected for its calming effect, and with Ultra Silent™ ventilation, NuTone LunAura Collection is a perfect way to enhance a spa-like environment. It also provides safety and navigation for nighttime tasks while still allowing you to return to restful sleep. For stunning ventilation in any room, nothing's quite as flexible as the NuTone LunAura Collection, because there's never been anything like it.

### NuTone LunAura Collection Fan/Light Features
